Investment Fund Valuation

We usually determine the value of each investment fund at the end of every business day. The net asset value (NAV) is determined based on (the market value of investments held by the fund *plus* the value of any current assets *less* the value of any current liabilities & provisions) *divided by* the number of units existing at valuation date (before creation or redemption of any units)

This unit price will be published on our company's website.

Investment Fund Unit Allocation and Unit Redemption

On each business day, the cut-off time is 3 p.m. by which time we must have received and accepted your instructions to invest in, or encash units from an investment fund. Instructions accepted by us up to the cut-off time are executed using the unit price we determine at the end of that business day. Instructions accepted by us after the cut-off time will be executed using the unit price determined by us at the end of the next business day.

Instruction to invest is deemed accepted by us when we receive cash, demand draft or local cheque at any of our offices by duly authorized officials. For outstation cheque, instruction to invest is deemed accepted by us only on the day we receive credit in any of our bank accounts.

The number of units allocated equals the monetary amount invested in an investment fund divided by its unit price at that time. Units are allocated when we receive a premium or when we execute your request to switch units from another investment fund (as applicable to your policy).

The number of units redeemed equals the monetary amount encashed from an investment fund divided by its unit price at that time. Units are redeemed when we execute your request to switch units to another investment fund (as applicable to your policy).

On each monthly processing date, policy charges, if any will be recovered by redeeming units from all investment funds under your policy in proportion to their value at that time. In case a Guaranteed Addition is added to your policy, units will be allocated to all investment funds under your policy in proportion to their value at that time. For the purpose of this paragraph, we will use the latest unit prices available.

Termination of your policy, for any reason, will result in the redemption of all units in all investment funds under your policy at the time.

Investment Fund Additions and Closures

your policy. Group Short Term Debt Fund is currently the conservative investment Fund. However, we can declare from time to time another investment fund as the most conservative in your policy.
