Before Your Read Any Further

ABSLI Wealth Assure Plus is a non-participating unit-linked life insurance plan. All unit-linked life insurance plans are different from traditional insurance plans and are subject to different risk factors. The name of this plan and that of the segregated funds do not in any way indicate the quality of the plan or future returns.

In this plan, the investment risk in the segregated funds chosen by you is borne by you. Segregated funds are subject to investment risks and unit prices may go up or down reflecting the market value of the underlying assets. Past performance is no guarantee of future results.

Your Choices

Plan Option – You have to choose one of the two plan options at inception. The benefit to be paid to the nominee/policyholder in case of unfortunate death of life insured during the Policy Term is Sum Assured plus Policy Fund Value.

In case you have chosen the Assured Option, then on the first occurrence of any Critical Illness or Total Permanent Disability, all the future instalment premiums under the policy shall be paid by us in the Policy fund value on each of the premium due dates till the end of the Policy Term or death, if earlier.

Basis the plan option chosen by you, the charges will vary.

Basic Premium – is equal to the **Annualised Premium** which you commit to pay every year regularly during the premium paying term excluding the taxes, rider premiums and underwriting extra premium on riders, if any. Basic Sum Assured ⁽¹⁾ is the minimum death benefit payable on the death of the life insured and is equal to 10 times of your Annualized premium.

Premium Paying Term & Mode – you can pay basic premium in monthly, quarterly, semi-annual or annual instalments for 10/15/20 years.

Policy Term – You can choose a Policy Term of 15, 20, 25, 30 or 35 years.

Investment Options - You have a choice to invest your money in the following investment options - 'Smart' Investment Option, 'Systematic Transfer' Investment Option, 'Self-managed' Investment Option or 'Return Optimiser' Investment Option. Smart Investment Option is for individuals who would like their investments to alter over time based on their age and risk profile. Systematic Transfer Investment Option is for individuals who would like to eliminate the need to time one's investments in the market. Return Optimiser Investment option is for individuals who would like to have optimal participation in the capital markets while safeguarding their returns from any market related volatilities. Self-managed Investment Option is for individuals who would like to have control over their investment.

You may wish to invest additional amounts as top-up premiums anytime except during the last five years of the policy term as long as all due basic premiums have been paid. The minimum top-up premium is Rs. 5,000 and at any point the total top-up premiums paid cannot exceed the total basic premiums paid to date. Top-up premiums cannot be withdrawn for five years unless the policy is surrendered. Top-up Sum Assured will be 125% of the top-up premium being paid.

Your Sum Assured⁽¹⁾ under the plan is the total of Basic Sum Assured and Top-up Sum Assured.

The basic premium and any top-up premium net of premium allocation charges will be used to purchase units in the various segregated fund/s offered under this plan and as chosen by you. The units purchased in the segregated fund is the monetary amount allocated to the segregated fund divided by its then prevailing unit price.

Basic Fund Value is equal to the number of units pertaining to basic premiums allocated to the segregated fund/s chosen by you multiplied by its then prevailing unit price

Top-up Fund Value, if any is equal to the number of units pertaining to top-up premiums allocated to the segregated fund/s chosen by you multiplied by its then prevailing unit price.

Policy Fund Value under this plan is the total of Basic Fund Value and Top-up Fund Value, if any.

⁽¹⁾ Basic Sum Assured is reduced for partial withdrawals as explained later.

Your Investment Options

Under ABSLI Wealth Assure Plus, you decide how to invest your premiums in one of the four investment options - Smart Investment Option, Systematic Transfer Investment Option, Return Optimiser Investment Option or the Self-managed Investment Option.

At any time after one year while your policy is in effect, you can change your investment option.

Smart Investment Option

Under the Smart Investment Option, your portfolio will be structured as per your maturity date and risk profile. We will invest your basic premiums between the two segregated funds – Maximiser (equity fund) and Income Advantage (debt fund) in a predetermined proportion based on the selected maturity date and risk profile. Thereon, we will manage and administer your investment portfolio on your behalf, thus saving your time and effort. Over time the allocation is managed such that it will automatically switch from riskier assets to safer assets progressively as your plan approaches maturity.

The proportion invested in Maximiser (equity fund) will be according to the table given below – the remaining amount will be invested in Income Advantage (debt fund):

Risk Profile	Years to maturity					
	5	6 – 10	11 – 15	16 – 20	21 – 30	31 – 35
Conservative	0%	5%	15%	30%	35%	50%
Moderate	0%	10%	25%	40%	50%	65%
Aggressive	0%	15%	35%	50%	65%	80%

For example – If person a takes policy with Policy Term 35 years, opts for Smart Investment Option and a moderate risk profile, then based on the maturity date and the risk profile the investment portfolio will change with time as below:

Years to maturity	Percentage of investments in	
	Maximiser	Income Advantage
31 – 35	65%	35%
21 – 30	50%	50%
16 – 20	40%	60%
11 – 15	25%	75%
6 – 10	10%	90%
5	0%	100%

You can change your risk profile at any time with no additional cost. All premiums paid from that point onwards will be invested in the Maximiser and Income Advantage according to your new risk profile.

We will automatically rebalance your investment portfolio on each policy anniversary to ensure that it maintains the predetermined proportion in Maximiser and Income Advantage as per the risk profile you have selected at no additional charge.

Systematic Transfer Investment Option

The Systematic Transfer Investment Option safeguards your wealth against the market volatilities and is available only if you have opted for annual mode. Under the Systematic Transfer Investment Option, at inception you can choose to transfer the fund on monthly basis or weekly basis. Your premium (net of premium allocation charge) shall be first allocated to Liquid Plus fund option and thereafter monthly 1/12th or weekly 1/48th of the allocated amount shall be transferred to a segregated fund(s) of your choice. You may choose up to a maximum of four segregated funds out of Income Advantage, Enhancer, Creator, Maximiser, Multiplier, Super 20, Value & Momentum and MNC for your premiums

to be transferred to. We record your allocation instructions as per the premium allocation percentages specified in the application form. Our only requirement is that the percentage allocated to chosen segregated fund(s) be in increments of 5%, ranging from 5% to 100%.

In case monthly transfer is opted, 1/12th of the allocated amount will be transferred to your chosen segregated fund(s) on 1st, 8th, 15th or 22nd of the month as selected by you. In case weekly transfer is opted, 1/48th of the allocated amount will be transferred to your chosen segregated fund(s) on 1st, 8th, 15th and 22nd of the month.

This option helps mitigate any risk arising from volatility and averages out the risks associated with the equity market, reducing the overall risk to your portfolio. You can switch between monthly and weekly transfer option on policy anniversary.

Example for monthly transfer – If Person A aged 35 years, opts for Systematic Transfer Option with transfers on 15th of every month to Super 20.

Premium/s net of premium allocation charges will be allocated in Liquid Plus Fund and thereafter on 15th of every month, 1/12th of initially allocated amount shall be automatically transferred to Super 20 Fund.

Example for weekly transfer – If Person A aged 35 years, opts for Systematic Transfer Option with weekly transfers to Super 20.

Premium/s net of premium allocation charges will be allocated in Liquid Plus Fund and thereafter on 1st, 8th, 15th and 22nd of every month, 1/14th of initially allocated amount shall be automatically transferred to Super 20 Fund.

Return Optimiser Investment Option

The Return Optimiser Investment Option enables you to take advantage of the equity market, protect your gains from the future market volatility and create a more stable sequencing of investment returns.

Under this option all your basic premiums (net of allocation charges) are invested in Maximiser Fund and it will be tracked every day for each policyholder for a pre-determined upside movement of 10% or more over the net invested amount (net of all charges). In the situation where the gain from the Maximiser Fund reaches 10% or more of the net invested amount, the amount equal to the appreciation will be transferred to the Income Advantage Fund at the prevailing unit price. This ensures that your gains are protected from any future market volatilities.

While the gain is less than the pre-determined upside movement of 10%, the Policy fund value will continue to remain in the Maximiser fund and no transfers will be made to the Income Advantage fund.

The Return Optimiser Investment Option can be explained with the help of an example as below:

For Age 30, Male, Classic Option, Basic Premium – ₹1,00,000, Policy Term – 20 years. At the end of the third policy year:

Total Premiums Paid (invested in Maximiser Fund)	₹3,00,000
Less charges deducted from Maximiser Fund (Premium Allocation Charge, Policy Administration Charge, Mortality Charge and GST)	₹25,392
Net amount lying in the Maximiser Fund	₹2,74,608

Suppose the Policy fund value is now Rs 310,000 which is higher than 302,069 (i.e. 110% of the net invested amount of 274,608) then Rs 35,392 (i.e. 310,000 – 274,608) will be transferred to Income Advantage Fund.

If the Policy fund value is less than Rs 302,069 then there will be no transfer to Income Advantage Fund.

Self-managed Investment Option

Self-managed Investment Option gives you access to our well established suite of 16 segregated funds, complete control in how to invest your premiums and full freedom to switch from one segregated fund to another.

Our 16 segregated funds range from 100% debt to 100% equity to suit your particular needs and risk appetite – Liquid Plus, Income Advantage, Assure, Protector, Builder, Enhancer, Creator, Magnifier, Maximiser, Multiplier, Super 20, Pure Equity, Value & Momentum, Capped Nifty Index, Asset Allocation, MNC. If you wish to diversify your risk, you can choose to allocate your premium in varying proportions amongst the 16 segregated funds. We record your allocation instructions as per the premium allocation percentages specified in the application form. Our only requirement is that the percentage allocated to any segregated fund be in increments of 5%, ranging from 5% to 100%.

To meet your ever changing investment needs, you have full flexibility to redirect future premiums by changing your premium allocation percentages at any time. You also have full flexibility to switch monies from one segregated fund to another at any time provided the switched amount is for at least ₹5,000.

You can change from one investment option to another investment option anytime after the first policy year. You can switch to Self-managed Investment Option, Smart Investment Option or Systematic Transfer Investment Option during the Policy Term, however switching to the Return Optimiser Investment Option is not allowed. Switching to Systematic Transfer Investment Option is allowed only at policy anniversary.

Allocation / Redemption of Units

On each business day, the instructions for investing in or encashing units from a Segregated Fund must be received and accepted by 3.00 p.m. Instructions accepted by us up to the cut-off time are executed using the unit price determined at the end of that business day. Instruction to invest is deemed accepted by us when we receive cash, demand draft or local cheque at any of our offices by duly authorised officials. For outstation cheque, instruction to invest is deemed accepted by us only on the day we receive credit in any of our bank accounts.

The number of units allocated equals the monetary amount invested in a segregated fund divided by its unit price at that time. Units are allocated when we receive a premium, when guaranteed additions are added to the Policy fund value or when we execute your request to switch units from another segregated fund (as applicable to your policy).

The number of units redeemed equals the monetary amount encashed from a Segregated Fund divided by its unit price at that time. Units are redeemed when we execute your request for a partial withdrawal or when we execute your request to switch units to another Segregated Fund (as applicable to your policy).

On each monthly processing date, policy charges will be covered by redeeming units from all Segregated Funds under your policy in proportion to their value at that time.

Unit Price

On each business day and for each Segregated Fund, we determine the unit price by dividing the net asset value (NAV) of the Segregated Fund at the valuation time by the number of units in existence for the Segregated Fund in question. We publish the unit price of all Segregated Funds on our website www.adityabirlasunlifeinsurance.com

The net asset value (NAV) is determined based on (the market value of investments held by the fund plus the value of any current assets less the value of any current liabilities & provisions) divided by (the number of units existing at valuation date before creation or redemption of any units).
